Education

University of California, Los Angeles (UCLA)

Los Angeles, CA

Ph.D. Candidate, Electrical and Computer Engineering, GPA: 3.95/4.0

2017 – Expected: Jun 2021

Dissertation Supervisor: Prof. Rob N. Candler

University of California, Los Angeles (UCLA)

Los Angeles, CA

M.S. in Electrical Engineering; *Edward K. Rice Outstanding Masters Award*

2015 - 2017

Bryn Mawr College (BMC)

Bryn Mawr, PA

B.A. in Physics (Honors); Minor: Computer Science, French; *Magna Cum Laude*

2011 - 2015

Research Interest

Nanomagnetism, Energy-efficient Multiferroics Devices, Micronanosystems, Straintronics, Magnetic and Ferroelectric, Magnetic Spectroscopy, Biomedical Devices, Application of Machine Learning and Artificial Intelligence in Magnetism, Advanced Microscopy Image Processing, Large-scale Synchrotron X-ray data mining, Robotics

Journal Publications

Awarded Research Proposals

1. “Electrically-controlled magnetization and strain profile in highly magnetostrictive microstructures”
Peer-Reviewed Beamtime Proposal, ALS, LBNL, Berkeley, CA, 2019
2. “Probing magnetic behavior in magnetostrictive composite microstructures for multiferroics applications”
ALS Doctoral Fellowship Proposal, ALS, LBNL, Berkeley, CA, 2018
3. “Electrical control of magnetization in epitaxial FeGa on PMN-PT single crystal”
Peer-Reviewed Beamtime Proposal, ALS, LBNL, Berkeley, CA, 2017

Selected Awards & Honors

- Dissertation Year Fellowship, UCLA**, Los Angeles, CA 2020 – 2021
- TANMS CLIMB Award for Graduate Research**, Los Angeles, CA 2020
- Fellow, The Data Incubator**, San Francisco, CA (2 % awarded) Summer 2020
- 2019 CESASC Scholarship**, Chinese-American Engineers and Scientists Association of Southern CA 2019
- Best Student Presentation Award Winner**, Joint MMM-Intermag Conference, Washington, DC 2019
- Awarded to 1 out of 5 finalists selected by the committee. The conference, sponsored by IEEE Magnetics, includes a wide range of topic on magnetism and magnetic materials and has historically drawn more than 1800 conference registrants, of which more than 500 are students.
- Edward K. Rice Outstanding Masters Award**, UCLA Henry Samueli School of Engineering Mar. 2019
- The award honors the achievements of 1 distinguished master’s students of academic year (2017-18) who has demonstrated academic and research excellence, leadership, and service to the school, university or community.
- Best Paper Award Finalist (1/8)**, 2018 PowerMEMS Conference, Daytona, FL Dec. 2018
- Selected as 1 of the 8 finalists for the Best Paper Award at the 18th International Conference on Micro and Nanotechnology for Power Generation and Energy Conversion Applications.
- ALS Doctoral Fellowship in Residence**, ALS, Berkeley National Laboratory, Berkeley, CA 2018 – 2019
- 1/10 Ph.D. students awarded internationally to conduct research onsite with scientists.
- Advanced Light Source Cross-cutting Review Travel Grant**, ALS, LBNL Jun. 2017
- Distinguished Master’s Thesis Award**, Electrical & Computer Engineering, UCLA 2017 – 2018
- Award to 1 master’s student from the Physical and Wave Electronics track each year.
- Department Fellowship**, Department of Electrical Engineering, UCLA 2015 – 2016
- Big Data Fellowship**, Center for Science of Information (soihub.org) 2015
- Leadership, Innovation, and Liberal Arts Center Research Funding**, LILAC, Bryn Mawr College 2014
- HHMI-funded Science Horizon Fellowship**, Howard Hughes Medical Institute (HHMI) 2013

Research Experience

Graduate Researcher

Sep. 2015 – Present

Sensors and Technology Laboratory, UCLA

Los Angeles, CA

- Applied machine learning to segment and improve resolution of synchrotron x-ray magnetic images to speed up beamline experiments.
- Developed simulation and analyzed experimental data from x-ray microdiffraction for strain map reconstruction.
- Designed, fabricated and tested magnetoelastic microstructures on ferroelectrics as the energy-efficient microscale motor prototypes for cell sorting applications and magnetoelectric memory devices.
- Simulated and demonstrated both the time-dependent strain and magnetization behavior in multiferroic heterostructures with finite element analysis (FEA). Highlighted the necessity of bi-directional coupling in modeling the multiferroics heterostructure.
- Led and conducted experiments (authored proposals) in the Lawrence Berkeley National Laboratory. Collaborated with researchers and scientists from UCLA, UC Berkeley, Berkeley Lab and Cornell University.
- Modeled and analyzed \sim TB data with Python, MatLab, OriginLab of the beamline experiment results including magnetic spectroscopy, x-ray linear dichroism, and x-ray microdiffraction data.

Doctoral Fellowship in Residence & Facility User

2016 – 2019

Advanced Light Source, Berkeley National Lab

Berkeley, CA

- Conducted synchrotron x-ray beamline experiments for various projects, built experiment tools, processed and analyzed spectroscopy and image data with Python, ImageJ, OriginLab and joined beamline maintenance with beamline scientists (Advised By Dr. Elke Arenholz & Dr. Alpha T. N'Diaye).

Undergraduate Research Assistant

2013 – 2015

Nanomaterials and Spintronics Lab, Bryn Mawr Physics

Bryn Mawr, PA

- Projects: Magnetization reversal of magnetic disks with Perpendicular Magnetic Anisotropy; Characterization of perovskite $\text{La}_{(1-x)}\text{Sr}_x\text{MnO}_3$ hexagonal LuFeO_3 and HoFeO_3 magnetic thin films.

Summer Undergraduate Researcher

Summer 2014

Department of Physics and Astronomy, Rutgers University

Rutgers, NJ

- Examined the ferroelectricity of hexagonal LuFeO_3 and HoFeO_3 via piezoelectric force microscope. Incorporated the homemade PFM system to an atomic force microscope.

Summer Undergraduate Research Assistant

Summer 2013

Center of Nanoscale Materials, Argonne National Laboratory

Lemont, IL

- Designed and fabricated a photomask in the cleanroom, and patterned microstructures on chips for magnetization reversal and magnetic bubble domain study.

Teaching & Mentoring & Outreach

TANMS Undergraduate Research Program, Los Angeles, CA

Feb.2020 – Present

- Mentor 6 engineering undergraduates on various research projects.
- Co-authored a journal manuscript (under revision) with three undergraduates in 2020.

Teaching Assistant, MEMS Physics & Design (Graduate), Los Angeles, CA

Spring 2020

- Designed homework problems for the Microelectromechanical Systems (MEMS) Device Physics and Design course.
- Taught a lecture on COMSOL simulation for MEMS device applications and hosted weekly office hours. Recorded video tutorials and training modules for students to get familiar with COMSOL simulations.

Student Leader, Emerging Research National Conference in STEM, Washington, DC

Feb. 2020

- Led a group of 9 underrepresented college and high school students with the education director from TANMS research center to present at ERN conference.
- Actively participated in professional development discussion panels for mentors and educators with NSF EFRI/ERC Program Managers.

NSF research experience for undergraduates (REU) Mentor, Los Angeles, CA Summer 2019

- Mentored 3 undergraduate students from community and local colleges on summer research projects.
- Students presented their research at the TANMS summer research meetings and 2020 Emerging Research National Conference in Washington, DC.

Pilot High School Outreach Program, Los Angeles, CA 2016 – 2018

- Developed curriculum and co-taught interdisciplinary classes with three TANMS research center graduate students to 200 students at Lawndale High School in Centinela Valley High School District, Los Angeles.
- Coordinated with Los Angeles high school science teachers and UCLA faculties to revise curriculum to include more engineering materials.

Teaching Assistant in Physics, Math and Computer Science, Bryn Mawr, CA 2013 – 2015

- Courses: Discrete Mathematics (CS), Physics for PostBacs (Physics), Calculus (Math)

Outreach with Society of Physics Students, Bryn Mawr Chapter, Bryn Mawr, CA 2013 – 2015

- Invited bimonthly local K-12 and high school student to college physics classrooms. Organize lab events to get students involved in a variety of experiments.
- Attended regional CATlyst STEM outreach conference and events at Swarthmore college. Co-taught mini lectures on nanotechnology to K-12 students. Special emphasis has been placed on broadening the participation of female students in science and engineering.

Professional Memberships

- Student Member: IEEE Magnetics Society, American Physics Society (APS), Society of Physics Students
- Member/User: Nanoelectronics Research Facility at UCLA, California Nano Systems Institute (CNSI), Center for High Frequency Electronics at UCLA, Nanofabrication Facility at Molecular Foundry, Advanced Light Source, Lawrence Berkeley National Lab (LBNL)

Professional Experiences

Session Chair NSF Site Visit TANMS Poster Session, UCLA	2020
Session Chair 40th International Conference on Vacuum Ultraviolet and X-ray Physics, CA, USA	2019
Session Chair TANMS Annual Review Strategy Meeting, UCLA	2019
Undergraduate Representative Bryn Mawr College Physics Faculty Search Committee	2015

Activities & Leadership

Invited Panel Speaker for Undergraduate Internship Program Lawrence Berkeley National Lab	2020
Organizer of Safety Circle for Postdocs & Students Lawrence Berkeley National Lab	2018 – 2019
<ul style="list-style-type: none"> • Invited speakers from different divisions in the Lawrence Berkeley National Laboratory, hosted monthly meetings for postdocs and students with high attendance rate. 	
TANMS Education Program for Los Angeles High School	2016 – 2018
<ul style="list-style-type: none"> • Collaborated with university professors, graduate students and high school teacher to design a new high school curriculum and teacher professional development project. • Developed science module to incorporate into high school physics curriculum to promote students' interest in continuing STEM education. (More details in TANMS newsletter). 	
President/Vice President, Society of Physics Students Bryn Mawr College Chapter	2013 – 2015
French to English Translator/Vocal Contributor WorldPulse.com	2013 – 2014
<ul style="list-style-type: none"> • Translated and commented on blog posts on behalf of Congolese women to bring them a global voice, to empower them and to build them a global network of support. 	
Student Member, Beyond the Borders: Global Vision Panel Tri-Co Consortium, PA	2014
<ul style="list-style-type: none"> • Engaged in a variety of conversations and presentations on cultural diversity with a cohort of students from different socioeconomic and cultural backgrounds. 	
Volunteer, African Family Health Organization (AFAHO) Philadelphia, PA	2013 – 2014
<ul style="list-style-type: none"> • Facilitated weekly community discussion with French speaking immigrants in English and French to assisted them in adapting to the new environment, and preparing for new jobs. 	

Coordinator, Fellow, Leadership Empowerment & Advancement Program BMC, PA 2011 – 2013

- Selected into a cohort of 16 fellows campus-wide and participated in weekly leadership advancement trainings and meetings (2011 – 2012).
- As one of the two student coordinators – Planned and coordinated weekly meeting with school leadership counselor; Created and organized online learning platform; Outreached alumni for panel discussions; Collected participants' feedback and communicated with school administrators (2012 – 2013).

Campus Ambassador, Asian Women's Leadership University Project Bryn Mawr, PA 2012

- Assisted AWLU project which aimed to provide top liberal arts college education to Asian Women; Raised awareness of accessible high education for women in developing countries through on campus meetings.

Relevant Coursework

Physical & Wave Electronics: Advanced Engineering Electrodynamics, Applied Optics, Advanced Electromagnetics, Advanced Quantum Mechanics, Terahertz Technologies & Applications, Classical Laser Theory, Antenna Theory & Design, Microwave & Millimeter Wave, Principles of Photonics, Solid State Electronics, Solid State Physics & Magnetism, Micro- and Nano-scale Biosensing for Molecular Diagnostics, Microelectromechanical systems (MEMS) Device Physics & Design (also TA'ed)

Machine Learning & Artificial Intelligence: Digital Image Processing, Computer Vision, Natural Language Processing, Neural Networks & Deep Learning, Fundamentals of Statistical Machine Learning, Computational Robotics (with Reinforcement Learning)

Data Science & Analytics: Data Incubator Intensive Data Science Fellowship Program, Matrix Analysis for Scientists and Engineers, Large-Scale Data Mining, Large-Scale Social & Complex Network, Statistics

Professional Skills

Experimental Tools & NanoFab: MOKE, Vibrating Sample Magnetometer, Photoemission Electron Microscopy, Magnetic Force Microscopy, Atomic Force Microscopy, X-ray Spectroscopy, Ferromagnetic resonance spectrometer, Superconducting quantum interference device, Electron Beam Lithography, Photolithography, Metal Evaporation/Sputtering, Dry Etching, Scanning Electron Microscopy

Programming/Software Skills: Python (proficient), Java, R, C, Apache Spark, SQL, MATLAB, L^AT_EX, OriginLab, L-edit, COMSOL Multiphysics (Finite Element Analysis), mumax3, AutoCAD

Languages: English (Fluent), Chinese (Fluent), French (Academic proficiency), German (Elementary)
